Dedifferentiating Paneth−like cells · A1 Rescue vs A1 Het
chromatin remodeling
animal organ morphogenesis
DNA repair
positive regulation of cell population proliferation
positive regulation of cell differentiation
tube morphogenesis
leukocyte activation
regulation of cell development
up_in_A1_Het
generation of precursor metabolites and energy
nucleobase−containing small molecule metabolic process
nucleoside phosphate metabolic process
energy derivation by oxidation of organic compounds
purine−containing compound metabolic process
monocarboxylic acid metabolic process
cellular respiration
aerobic respiration
