Global · A1 Rescue vs A1 Het
tissue morphogenesis
cell morphogenesis involved in neuron differentiation
synapse organization
blood vessel morphogenesis
morphogenesis of an epithelium
sensory organ development
response to bacterium
positive regulation of locomotion
up_in_A1_Het
purine−containing compound metabolic process
generation of precursor metabolites and energy
fatty acid metabolic process
small molecule biosynthetic process
energy derivation by oxidation of organic compounds
response to bacterium
regulation of hormone levels
nucleotide metabolic process
