Absorptive enterocytes · A1 Rescue vs KO
ribonucleoprotein complex biogenesis
ribosome biogenesis
cytoplasmic translation
rRNA metabolic process
rRNA processing
gamete generation
muscle structure development
male gamete generation
up_in_A1_Rescue
monocarboxylic acid metabolic process
lipid biosynthetic process
nucleobase−containing small molecule metabolic process
small molecule biosynthetic process
actin filament−based process
animal organ morphogenesis
nucleoside phosphate metabolic process
regulation of defense response
