Early Differentiating Enterocytes · A1 Het vs WT
membrane organization
monoatomic ion transport
supramolecular fiber organization
lipid biosynthetic process
monocarboxylic acid metabolic process
positive regulation of locomotion
positive regulation of cell motility
positive regulation of cell migration
up_in_A1_Het
ribonucleoprotein complex biogenesis
chromatin remodeling
negative regulation of developmental process
negative regulation of transcription by RNA polymerase II
sexual reproduction
positive regulation of cell population proliferation
multicellular organismal reproductive process
muscle structure development
