Early Differentiating Enterocytes · A1 Rescue vs WT
monocarboxylic acid metabolic process
membrane organization
monoatomic ion transport
nucleobase−containing small molecule metabolic process
nucleoside phosphate metabolic process
lipid biosynthetic process
small molecule biosynthetic process
purine−containing compound metabolic process
up_in_A1_Rescue
negative regulation of transcription by RNA polymerase II
negative regulation of developmental process
chromatin remodeling
ribonucleoprotein complex biogenesis
hemopoiesis
developmental process involved in reproduction
cell activation
sexual reproduction
