Enteroendocrine Cells · A1 Rescue vs WT
ribonucleoprotein complex biogenesis
chromosome organization
mRNA processing
chromosome segregation
cell cycle phase transition
RNA splicing
ribosome biogenesis
regulation of mitotic cell cycle
up_in_A1_Rescue
monoatomic cation transport
synaptic signaling
monoatomic ion transmembrane transport
trans−synaptic signaling
anterograde trans−synaptic signaling
chemical synaptic transmission
regulation of plasma membrane bounded cell projection organization
cell projection morphogenesis
