GSE64642_hMSC · late KO vs WT
positive regulation of programmed cell death
regulation of cytoskeleton organization
positive regulation of apoptotic process
small GTPase−mediated signal transduction
cell morphogenesis involved in neuron differentiation
cellular component disassembly
vesicle organization
macroautophagy
up_in_late_ko
skeletal system development
cell morphogenesis involved in neuron differentiation
blood circulation
cell junction assembly
heart development
small GTPase−mediated signal transduction
sensory organ development
ossification
