Enteroendocrine Cells · KO vs WT
synaptic signaling
cell−cell adhesion
nervous system process
vasculature development
MAPK cascade
regulation of secretion
negative regulation of cell population proliferation
trans−synaptic signaling
up_in_KO
generation of precursor metabolites and energy
nucleobase−containing small molecule metabolic process
nucleoside phosphate metabolic process
energy derivation by oxidation of organic compounds
purine−containing compound metabolic process
cellular respiration
monocarboxylic acid metabolic process
small molecule biosynthetic process
