Intestinal Stem Cells · KO vs WT
cell−cell adhesion
MAPK cascade
actin cytoskeleton organization
cytokine production
vasculature development
regulation of cytokine production
positive regulation of immune response
inflammatory response
up_in_KO
ribonucleoprotein complex biogenesis
rRNA metabolic process
rRNA processing
amino acid metabolic process
oxidative phosphorylation
electron transport chain
respiratory electron transport chain
maturation of 5.8S rRNA from tricistronic rRNA transcript (SSU−rRNA, 5.8S rRNA, LSU−rRNA)
