Goblet cells · A1 Rescue vs A1 Het
Phagocytosis
Protein processing in endoplasmic reticulum
NOD−like receptor signaling pathway
Transcriptional misregulation in cancer
Staphylococcus aureus infection
Mucin type O−glycan biosynthesis
Complement and coagulation cascades
up_in_A1_Het
Chemical carcinogenesis − reactive oxygen species
Thermogenesis
Pathways of neurodegeneration − multiple diseases
Parkinson disease
Alzheimer disease
Amyotrophic lateral sclerosis
Prion disease
Huntington disease
