GSE109280_MEF · ATM KO vs WT
ribonucleoprotein complex biogenesis
pattern specification process
ribosome biogenesis
rRNA metabolic process
rRNA processing
protein−RNA complex organization
protein−RNA complex assembly
embryonic limb morphogenesis
up_in_ATM_KO
angiogenesis
positive regulation of cell migration
sensory organ development
intracellular chemical homeostasis
morphogenesis of an epithelium
skeletal system development
small GTPase−mediated signal transduction
response to wounding
