TA Cells − S · KO vs WT
positive regulation of immune response
MAPK cascade
cell−cell adhesion
actin cytoskeleton organization
vasculature development
cytokine production
regulation of cytokine production
blood vessel development
up_in_KO
monocarboxylic acid metabolic process
generation of precursor metabolites and energy
small molecule biosynthetic process
purine−containing compound metabolic process
brain development
fatty acid metabolic process
energy derivation by oxidation of organic compounds
regulation of hormone levels
