Absorptive enterocytes · A1 Het vs WT
positive regulation of programmed cell death
positive regulation of apoptotic process
positive regulation of apoptotic signaling pathway
male sex differentiation
development of primary male sexual characteristics
male gonad development
alternative mRNA splicing, via spliceosome
up_in_A1_Het
monocarboxylic acid metabolic process
cell division
organelle fission
small molecule biosynthetic process
chromosome segregation
nucleobase−containing small molecule metabolic process
chromosome organization
nuclear division
