Absorptive enterocytes · A1 Rescue vs WT
ribonucleoprotein complex biogenesis
protein maturation
cytoplasmic translation
ribosome biogenesis
mitochondrial gene expression
mitochondrial translation
ribosomal small subunit biogenesis
translation at presynapse
up_in_A1_Rescue
monocarboxylic acid metabolic process
lipid biosynthetic process
small molecule biosynthetic process
monoatomic ion transmembrane transport
nucleobase−containing small molecule metabolic process
cellular homeostasis
fatty acid metabolic process
monoatomic cation transport
