Early Differentiating Enterocytes · A1 Rescue vs KO
monocarboxylic acid metabolic process
small molecule biosynthetic process
nucleobase−containing small molecule metabolic process
nucleoside phosphate metabolic process
lipid biosynthetic process
purine−containing compound metabolic process
generation of precursor metabolites and energy
fatty acid metabolic process
up_in_A1_Rescue
regulation of locomotion
response to lipid
negative regulation of transcription by RNA polymerase II
response to hormone
regulation of cell motility
developmental process involved in reproduction
cell activation
animal organ morphogenesis
