Intestinal Stem Cells · A1 Het vs WT
cell projection assembly
plasma membrane bounded cell projection assembly
morphogenesis of an epithelium
cilium assembly
renal system development
skin development
skin epidermis development
molting cycle
up_in_A1_Het
monocarboxylic acid metabolic process
small molecule biosynthetic process
generation of precursor metabolites and energy
nucleoside phosphate metabolic process
purine−containing compound metabolic process
energy derivation by oxidation of organic compounds
monoatomic ion transmembrane transport
organophosphate biosynthetic process
