Paneth Cells · A1 Het vs WT
tube morphogenesis
regulation of cell migration
chromatin remodeling
animal organ morphogenesis
regulation of anatomical structure morphogenesis
positive regulation of cell population proliferation
cell junction organization
cell−cell adhesion
up_in_A1_Het
generation of precursor metabolites and energy
energy derivation by oxidation of organic compounds
cellular respiration
nucleobase−containing small molecule metabolic process
nucleoside phosphate metabolic process
aerobic respiration
purine−containing compound metabolic process
monocarboxylic acid metabolic process
