Paneth Cells Progenitors · A1 Rescue vs KO
monocarboxylic acid metabolic process
small molecule biosynthetic process
chemical homeostasis
lipid biosynthetic process
nucleobase−containing small molecule metabolic process
nucleoside phosphate metabolic process
generation of precursor metabolites and energy
monoatomic ion transport
up_in_A1_Rescue
negative regulation of developmental process
regulation of locomotion
cell adhesion
regulation of cell motility
positive regulation of cell population proliferation
regulation of cell migration
negative regulation of multicellular organismal process
tube morphogenesis
