mRNA processing
RNA splicing
ribonucleoprotein complex biogenesis
regulation of DNA metabolic process
regulation of mRNA metabolic process
mRNA splicing, via spliceosome
RNA splicing, via transesterification reactions with bulged adenosine as nucleophile
RNA splicing, via transesterification reactions
regulation of RNA splicing
regulation of mRNA processing
stem cell population maintenance
regulation of mRNA splicing, via spliceosome
negative regulation of mRNA metabolic process
alternative mRNA splicing, via spliceosome
regulation of DNA biosynthetic process
regulation of alternative mRNA splicing, via spliceosome
positive regulation of DNA biosynthetic process
regulation of telomere maintenance via telomerase
positive regulation of telomere maintenance via telomere lengthening
positive regulation of telomere maintenance via telomerase
