GO_BP | Cybrd1+ ent | A1_Rescue_vs_A1_Het | up in A1_Rescue | n = 744
generation of precursor metabolites and energy
actin filament organization
lipid transport
cellular respiration
response to toxic substance
electron transport chain
respiratory electron transport chain
oxidative phosphorylation
detoxification
digestive system process
digestion
vesicle budding from membrane
cellular oxidant detoxification
intestinal absorption
ATP synthesis coupled electron transport
regulation of actin filament depolymerization
plasma lipoprotein particle organization
lipoprotein transport
lipoprotein localization
positive regulation of oxidoreductase activity
