Reactome | Cybrd1+ ent | A1_Rescue_vs_A1_Het | up in A1_Rescue | n =
Vesicle−mediated transport
Transport of small molecules
Membrane Trafficking
Cellular responses to stimuli
Neutrophil degranulation
Cellular responses to stress
Hemostasis
Aerobic respiration and respiratory electron transport
Transport to the Golgi and subsequent modification
Respiratory electron transport
ER to Golgi Anterograde Transport
MHC class II antigen presentation
COPI−mediated anterograde transport
L1CAM interactions
Iron uptake and transport
Keratinization
Formation of the cornified envelope
Plasma lipoprotein assembly
Chylomicron assembly
Digestion
