GO_BP | EEC | A1_Rescue_vs_A1_Het | up in A1_Het | n = 1501
signal release
regulation of secretion by cell
regulation of hormone levels
cell morphogenesis involved in neuron differentiation
regulation of trans−synaptic signaling
modulation of chemical synaptic transmission
hormone transport
hormone secretion
peptide transport
peptide secretion
peptide hormone secretion
regulation of hormone secretion
insulin secretion
regulation of peptide transport
regulation of peptide secretion
regulation of peptide hormone secretion
regulation of synaptic plasticity
regulation of insulin secretion
neurotransmitter transport
catecholamine transport
