GO_MF | EEC | A1_Rescue_vs_WT | up in A1_Rescue | n = 1126
structural molecule activity
isomerase activity
catalytic activity, acting on RNA
mRNA binding
ribonucleoprotein complex binding
catalytic activity, acting on DNA
structural constituent of ribosome
macromolecular conformation isomerase activity
single−stranded DNA binding
nucleic acid conformation isomerase activity
helicase activity
ribosome binding
ATP−dependent activity, acting on DNA
rRNA binding
damaged DNA binding
nucleosome binding
snoRNA binding
snRNP binding
ribonuclease P activity
ribonuclease P RNA binding
