GO_BP | EEC | KO_vs_WT | up in KO | n = 799
positive regulation of locomotion
positive regulation of cell motility
positive regulation of cell migration
circulatory system process
blood circulation
regulation of trans−synaptic signaling
modulation of chemical synaptic transmission
peptide transport
regulation of neuron apoptotic process
peptide secretion
response to carbohydrate
peptide hormone secretion
response to monosaccharide
insulin secretion
response to glucose
regulation of synaptic plasticity
regulation of blood pressure
regulation of systemic arterial blood pressure
cAMP/PKA signal transduction
regulation of systemic arterial blood pressure by hormone
