fatty acid metabolic process
response to xenobiotic stimulus
alcohol metabolic process
steroid metabolic process
sulfur compound metabolic process
hormone metabolic process
olefinic compound metabolic process
cellular response to xenobiotic stimulus
xenobiotic metabolic process
isoprenoid metabolic process
detoxification
acylglycerol metabolic process
terpenoid metabolic process
unsaturated fatty acid metabolic process
triglyceride metabolic process
long−chain fatty acid metabolic process
diterpenoid metabolic process
retinoid metabolic process
glutathione metabolic process
xenobiotic catabolic process
