GO_CC | Fabp1+ ent | A1_Het_vs_WT | up in A1_Het | n = 889
mitochondrial inner membrane
apical part of cell
apical plasma membrane
cluster of actin−based cell projections
brush border
actin−based cell projection
peroxisome
microbody
lipid droplet
microvillus
extracellular vesicle
extracellular organelle
extracellular membrane−bounded organelle
brush border membrane
endoplasmic reticulum−Golgi intermediate compartment membrane
phagocytic vesicle membrane
peroxisomal matrix
microbody lumen
autolysosome
MHC class I protein complex
