GO_BP | Fabp1+ ent | A1_Rescue_vs_A1_Het | up in A1_Het | n = 559
fatty acid metabolic process
response to xenobiotic stimulus
steroid metabolic process
alcohol metabolic process
small molecule catabolic process
glycerolipid metabolic process
lipid catabolic process
hormone metabolic process
olefinic compound metabolic process
neutral lipid metabolic process
acylglycerol metabolic process
terpenoid metabolic process
isoprenoid metabolic process
triglyceride metabolic process
unsaturated fatty acid metabolic process
diterpenoid metabolic process
retinoid metabolic process
sterol biosynthetic process
secondary alcohol biosynthetic process
cholesterol biosynthetic process
