GO_BP | Fabp1+ ent | KO_vs_WT | up in KO | n = 983
small molecule biosynthetic process
fatty acid metabolic process
response to wounding
response to xenobiotic stimulus
wound healing
alcohol metabolic process
steroid metabolic process
response to molecule of bacterial origin
response to lipopolysaccharide
olefinic compound metabolic process
unsaturated fatty acid metabolic process
cellular response to xenobiotic stimulus
icosanoid metabolic process
response to type II interferon
long−chain fatty acid metabolic process
xenobiotic metabolic process
terpenoid metabolic process
prostanoid metabolic process
intestinal absorption
prostaglandin metabolic process
