GO_CC | Fabp1+ ent | KO_vs_WT | up in WT | n = 1009
nuclear envelope
chromosomal region
condensed chromosome
chromosome, centromeric region
spliceosomal complex
condensed chromosome, centromeric region
preribosome
catalytic step 2 spliceosome
ATPase complex
Sm−like protein family complex
small nuclear ribonucleoprotein complex
nuclear pore
spliceosomal snRNP complex
precatalytic spliceosome
small−subunit processome
U2−type precatalytic spliceosome
sno(s)RNA−containing ribonucleoprotein complex
post−mRNA release spliceosomal complex
U12−type precatalytic spliceosome
pronucleus
