GO_BP | Global | A1_Het_vs_WT | up in WT | n = 2430
small molecule biosynthetic process
carbohydrate metabolic process
fatty acid metabolic process
organic anion transport
lipid localization
small molecule catabolic process
organic acid transport
carboxylic acid transport
organic acid biosynthetic process
carboxylic acid biosynthetic process
import across plasma membrane
amino acid metabolic process
modified amino acid metabolic process
carbohydrate biosynthetic process
olefinic compound metabolic process
carboxylic acid transmembrane transport
positive regulation of leukocyte proliferation
positive regulation of mononuclear cell proliferation
positive regulation of lymphocyte proliferation
icosanoid metabolic process
