GO_BP | Global | A1_Rescue_vs_A1_Het | up in A1_Het
cell morphogenesis involved in neuron differentiation
blood vessel morphogenesis
axon development
axonogenesis
regulation of membrane potential
renal system development
mesenchyme development
extracellular structure organization
extracellular matrix organization
external encapsulating structure organization
mesenchymal cell differentiation
neuron projection guidance
axon guidance
humoral immune response
adenylate cyclase−modulating G protein−coupled receptor signaling pathway
antimicrobial humoral immune response mediated by antimicrobial peptide
regulation of animal organ morphogenesis
antibacterial humoral response
disruption of plasma membrane integrity in another organism
disruption of cellular anatomical structure in another organism
