active transmembrane transporter activity
organic acid binding
carboxylic acid binding
carboxylic acid transmembrane transporter activity
oxidoreductase activity, acting on paired donors, with incorporation or reduction of molecular oxygen
lipid transporter activity
iron ion binding
tetrapyrrole binding
heme binding
monooxygenase activity
monocarboxylic acid binding
monocarboxylic acid transmembrane transporter activity
antioxidant activity
, acting on paired donors, with incorporation or reduction of molecular oxygen, reduced flavin or flavoprotein as one donor, and incorporation of one atom of oxygen
fatty acid binding
lipid transmembrane transporter activity
glutathione transferase activity
steroid hydroxylase activity
arachidonate monooxygenase activity
arachidonate epoxygenase activity
