GO_BP | Global | A1_Rescue_vs_KO | up in KO | n = 2646
blood vessel morphogenesis
positive regulation of locomotion
positive regulation of cell motility
synapse organization
positive regulation of cell migration
angiogenesis
immune effector process
ossification
taxis
chemotaxis
leukocyte migration
extracellular structure organization
extracellular matrix organization
external encapsulating structure organization
cell chemotaxis
cell killing
myeloid leukocyte migration
humoral immune response
antigen processing and presentation
defense response to Gram−positive bacterium
