KEGG | Global | KO_vs_WT | up in KO | n = 2357
IgSF CAM signaling
Cytoskeleton in muscle cells
Focal adhesion
Herpes simplex virus 1 infection
Proteoglycans in cancer
NOD−like receptor signaling pathway
Cytokine−cytokine receptor interaction
Cell adhesion molecule (CAM) interaction
Integrin signaling
Cornified envelope formation
p53 signaling pathway
ECM−receptor interaction
Hypertrophic cardiomyopathy
Dilated cardiomyopathy
Staphylococcus aureus infection
Viral myocarditis
Hematopoietic cell lineage
DNA replication
Viral protein interaction with cytokine and cytokine receptor
Type I diabetes mellitus
