monoatomic ion transmembrane transporter activity
active transmembrane transporter activity
monoatomic cation transmembrane transporter activity
metal ion transmembrane transporter activity
secondary active transmembrane transporter activity
lipid transporter activity
carboxylic acid transmembrane transporter activity
oxidoreductase activity, acting on paired donors, with incorporation or reduction of molecular oxygen
symporter activity
primary active transmembrane transporter activity
heme binding
solute:monoatomic cation symporter activity
amino acid transmembrane transporter activity
L−amino acid transmembrane transporter activity
, acting on paired donors, with incorporation or reduction of molecular oxygen, reduced flavin or flavoprotein as one donor, and incorporation of one atom of oxygen
lipid transmembrane transporter activity
arachidonate monooxygenase activity
arachidonate epoxygenase activity
retinoic acid 4−hydroxylase activity
estrogen 16−alpha−hydroxylase activity
