GO_BP | Goblet | A1_Rescue_vs_KO | up in KO | n = 697
blood vessel morphogenesis
response to wounding
angiogenesis
epithelial cell proliferation
muscle tissue development
response to xenobiotic stimulus
response to oxygen levels
response to hypoxia
response to decreased oxygen levels
response to glucose
cell fate commitment
skeletal muscle tissue development
skeletal muscle organ development
ribonucleotide catabolic process
pyruvate metabolic process
keratinocyte proliferation
leukocyte adhesion to vascular endothelial cell
regulation of leukocyte adhesion to vascular endothelial cell
fructose metabolic process
