response to wounding
DNA replication
wound healing
DNA−templated DNA replication
regulation of response to wounding
hemostasis
coagulation
blood coagulation
regulation of wound healing
DNA replication initiation
nuclear DNA replication
isoprenoid biosynthetic process
mitotic DNA replication
zymosterol metabolic process
zymosterol biosynthetic process
cholesterol biosynthetic process via lathosterol
cholesterol biosynthetic process via desmosterol
farnesyl diphosphate metabolic process
farnesyl diphosphate biosynthetic process
double−strand break repair via break−induced replication
