GO_BP | Imm ent | A1_Het_vs_WT | up in WT | n = 1658
small molecule biosynthetic process
fatty acid metabolic process
purine−containing compound metabolic process
response to nutrient levels
carbohydrate metabolic process
small molecule catabolic process
response to xenobiotic stimulus
organic acid biosynthetic process
carboxylic acid biosynthetic process
alcohol metabolic process
sulfur compound metabolic process
amino acid metabolic process
organic acid catabolic process
carboxylic acid catabolic process
import across plasma membrane
monocarboxylic acid biosynthetic process
alpha−amino acid metabolic process
L−amino acid metabolic process
cellular response to xenobiotic stimulus
xenobiotic metabolic process
