GO_BP | Imm ent | A1_Rescue_vs_A1_Het | up in A1_Het | n = 1458
negative regulation of cell differentiation
tissue morphogenesis
positive regulation of locomotion
heart development
positive regulation of cell motility
morphogenesis of an epithelium
blood vessel morphogenesis
positive regulation of cell migration
skeletal system development
epithelial tube morphogenesis
ossification
renal system development
kidney development
taxis
chemotaxis
T cell differentiation
heart morphogenesis
bone development
osteoblast differentiation
alpha−beta T cell activation
