GO_BP | Imm ent | A1_Rescue_vs_WT | up in WT | n = 1466
negative regulation of cell differentiation
cellular response to growth factor stimulus
blood vessel morphogenesis
tissue morphogenesis
response to nutrient levels
cell surface receptor protein tyrosine kinase signaling pathway
embryonic morphogenesis
sensory organ development
morphogenesis of an epithelium
angiogenesis
Wnt signaling pathway
embryonic organ development
sensory system development
visual system development
eye development
cell surface receptor protein serine/threonine kinase signaling pathway
camera−type eye development
transforming growth factor beta receptor superfamily signaling pathway
cellular response to nutrient levels
BMP signaling pathway
