GO_BP | Paneth | A1_Het_vs_WT | up in WT | n = 354
response to peptide hormone
regulation of growth
generation of precursor metabolites and energy
energy derivation by oxidation of organic compounds
response to oxygen levels
response to decreased oxygen levels
response to metal ion
response to hypoxia
cellular response to peptide hormone stimulus
cellular respiration
aerobic respiration
response to insulin
skin development
purine ribonucleoside triphosphate metabolic process
cellular response to insulin stimulus
glucose metabolic process
pyruvate metabolic process
cellular response to hypoxia
face development
ERBB2 signaling pathway
