GO_BP | Paneth | A1_Rescue_vs_A1_Het | up in A1_Het |
response to bacterium
positive regulation of cytokine production
humoral immune response
defense response to bacterium
defense response to Gram−positive bacterium
antimicrobial humoral response
antimicrobial humoral immune response mediated by antimicrobial peptide
antibacterial humoral response
defense response to Gram−negative bacterium
disruption of anatomical structure in another organism
cell killing
disruption of plasma membrane integrity in another organism
disruption of cellular anatomical structure in another organism
protein tetramerization
killing of cells of another organism
disruption of cell in another organism
regulation of membrane permeability
protein homotetramerization
positive regulation of membrane permeability
positive regulation of interleukin−8 production
