GO_BP | Paneth | A1_Rescue_vs_KO | up in A1_Rescue | n = 514
organophosphate biosynthetic process
generation of precursor metabolites and energy
energy derivation by oxidation of organic compounds
cellular respiration
aerobic respiration
oxidative phosphorylation
electron transport chain
respiratory electron transport chain
proton transmembrane transport
mitochondrial ATP synthesis coupled electron transport
ATP synthesis coupled electron transport
sterol biosynthetic process
secondary alcohol biosynthetic process
cholesterol biosynthetic process
aerobic electron transport chain
proton motive force−driven mitochondrial ATP synthesis
proton motive force−driven ATP synthesis
cholesterol biosynthetic process via lathosterol
zymosterol metabolic process
zymosterol biosynthetic process
