GO_BP | Paneth | A1_Rescue_vs_KO | up in KO | n = 348
nucleobase−containing compound catabolic process
RNA splicing
positive regulation of cytokine production
regulation of hemopoiesis
defense response to bacterium
defense response to Gram−positive bacterium
humoral immune response
defense response to Gram−negative bacterium
antimicrobial humoral response
antimicrobial humoral immune response mediated by antimicrobial peptide
disruption of anatomical structure in another organism
antibacterial humoral response
regulation of membrane permeability
killing of cells of another organism
disruption of plasma membrane integrity in another organism
disruption of cellular anatomical structure in another organism
disruption of cell in another organism
protein homotetramerization
positive regulation of membrane permeability
positive regulation of interleukin−8 production
