GO_BP | Pre−Paneth | A1_Het_vs_WT | up in A1_Het | n = 981
mRNA processing
RNA splicing
ribonucleoprotein complex biogenesis
DNA replication
ribosome biogenesis
rRNA metabolic process
RNA splicing, via transesterification reactions
rRNA processing
DNA−templated DNA replication
defense response to Gram−positive bacterium
DNA replication initiation
cell cycle DNA replication
nuclear DNA replication
mitotic DNA replication
DNA replication checkpoint signaling
