GO_BP | Stem cell | A1_Rescue_vs_A1_Het | up in A1_Het | n = 1534
blood vessel morphogenesis
tissue morphogenesis
cell morphogenesis involved in neuron differentiation
angiogenesis
skeletal system development
positive regulation of MAPK cascade
ossification
renal system development
taxis
chemotaxis
mesenchyme development
heart morphogenesis
extracellular structure organization
extracellular matrix organization
external encapsulating structure organization
osteoblast differentiation
cartilage development
response to corticosteroid
regulation of osteoblast differentiation
chondrocyte proliferation
