ATP−dependent activity
ATP hydrolysis activity
primary active transmembrane transporter activity
ATPase−coupled transmembrane transporter activity
tetrapyrrole binding
heme binding
proton transmembrane transporter activity
monooxygenase activity
active monoatomic ion transmembrane transporter activity
, acting on paired donors, with incorporation or reduction of molecular oxygen, reduced flavin or flavoprotein as one donor, and incorporation of one atom of oxygen
fatty acid binding
ATPase−coupled monoatomic cation transmembrane transporter activity
steroid hydroxylase activity
arachidonate monooxygenase activity
retinoic acid 4−hydroxylase activity
proton−transporting ATPase activity, rotational mechanism
arachidonate epoxygenase activity
ATPase−coupled ion transmembrane transporter activity
ATPase activity, coupled to transmembrane movement of ions, rotational mechanism
estrogen 16−alpha−hydroxylase activity
