GO_CC | Stem cell | A1_Rescue_vs_KO | up in KO | n = 1980
cell−cell junction
apical part of cell
cell leading edge
extracellular matrix
external encapsulating structure
membrane raft
membrane microdomain
basal part of cell
external side of plasma membrane
basal plasma membrane
lamellipodium
actin−based cell projection
adherens junction
apical junction complex
tight junction
bicellular tight junction
actin filament bundle
actomyosin
stress fiber
contractile actin filament bundle
