GO_BP | Stem cell | A1_Rescue_vs_WT | up in WT | n = 1288
cellular response to growth factor stimulus
blood vessel morphogenesis
small molecule biosynthetic process
carbohydrate metabolic process
sensory organ development
angiogenesis
visual system development
sensory system development
eye development
cell surface receptor protein serine/threonine kinase signaling pathway
regulation of cellular response to growth factor stimulus
transforming growth factor beta receptor superfamily signaling pathway
renal system development
camera−type eye development
organic acid biosynthetic process
kidney development
regulation of vasculature development
negative regulation of growth
cellular response to transforming growth factor beta stimulus
regulation of angiogenesis
