GO_BP | Stem cell | K
response to wounding
immune effector process
angiogenesis
wound healing
adaptive immune response
leukocyte migration
adaptive immune response based on somatic recombination of immune receptors built from immunoglobulin superfamily domains
lymphocyte mediated immunity
extracellular structure organization
extracellular matrix organization
external encapsulating structure organization
regulation of lymphocyte mediated immunity
blood coagulation
positive regulation of leukocyte mediated immunity
positive regulation of lymphocyte mediated immunity
regulation of cell killing
regulation of leukocyte mediated cytotoxicity
zymogen activation
regulation of plasminogen activation
plasminogen activation
